Investing in our future

it truly is an exciting time to be part of the Riverdale Healthcare journey.

We are investing in many of our sites to improve the facilities for both our teams and patients.

At Alpha Dental Care Fairfield, in Stockton, we now occupy the whole building and have added a fifth surgery, which will be used to develop private treatment options.

From April Jane Ahkter will be joining the practice, providing private dentistry, Invisalign and Endodontics.

In the coming week, new signage will also go up which will help raise the profile of the practice locally.

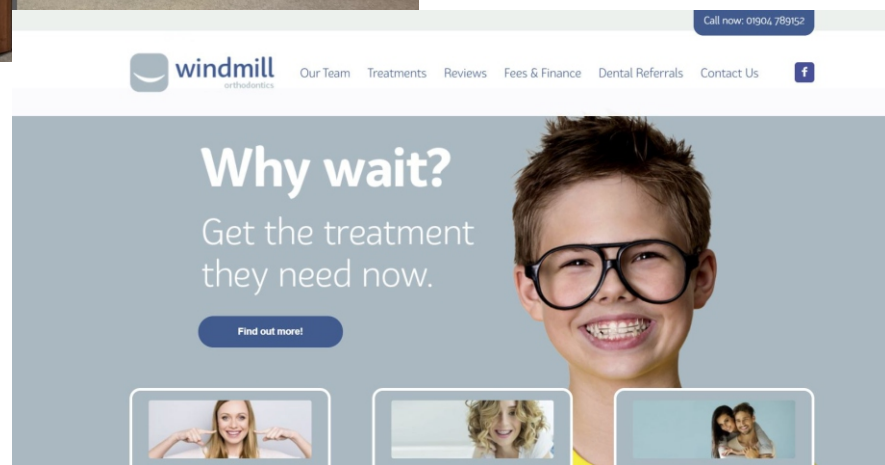

The investment coincides with the practice turning 10 years old this month. The team have some celebrations planned in April.

New signage is being installed and decoration taking place at Hebburn and Pelaw dental practices. The sites, which were acquired last summer, are getting a refresh to help attract new patients. Work is due to be completed in the next couple of weeks.

Windmill Powers Ahead to Private Focus

Due to changes in the NHS contact, Windmill Orthodontics York will be focussing on private referrals. The practice had undergone redecoration, a new website has been created; www.windmillorthodonticsyork.co.uk and new signage is planned. We are really excited by the developments here and would like to thank the team for their support over the past few months.

Refer a Friend Bonus

Don't forget we launched a Finder's Fee Scheme this month. This a referral programme for current staff members who introduce a new team member to Riverdale.

The criteria is as follows:

- Must result in successful employment
- The finders fee will be paid out in 2 parts. First half after 3 months employment and final half paid at 6 months employment.

The following fees will be paid out for type of role employed:

- Dentist £750.00
- Management £400.00
- Support Staff £300.00

In the first instance, please advise your Practice Manager if you wish to recommend someone for a role with us.

Personal Development

Congratulations to Guy Wells and David Birkin for completing the 10 day SimplyEndo course in Formby with Dr Mike Turner.

Here are the gents pictured with Mike receiving their certificates.

Nancy Lockwood has recently completed Ian Cline's course. she said, "Just a quick note to say the Ian Cline course has been

really worth the money and time commitment, not just for the up and coming dental stars but even for olde timers like me. He has been kind and patient with some of us who are more technologically challenged whilst keeping a good pace for those who aren't. I am already trying to implement some of my updated skills especially in more advanced cases. Well worth it!"

Full details of Ian's courses and the exclusive rates for our dentists are on the following pages:

Internal Study Groups

We are passionate about ensuring our clinicians are fully supported in their professional development.

This week also saw Clinical Director, Neeraj Diddee, deliver an Isolation Course at our Stokesley head office.

We had a fantastic turn out and we will be looking to expand our programme throughout the year.

DR IAN CLINE PRESENTS HIS POPULAR
9 DAY COURSE IN AESTHETIC RESTORATIVE DENTISTRY
OCTOBER 2020 - JUNE 2021

I am delighted to inform you that Ian Cline will be bringing his 9 day Aesthetic Restorative Course back to the North East for 2020-21 starting in October. The course will run from our Head Office in Stokesley once per month on a Saturday. Ian Cline is a world renowned clinician and we are incredibly lucky having someone with such a strong international reputation come to our locality. You would normally have to travel much further afield to experience this sort of course. There is no other type of course like this in our region. The course is limited to 10 delegates which enables more direct teaching, supervision, feedback and engagement. Places will be allocated on a first come first served basis. I am currently doing the course with several of our Dentists and it has been excellent so far. There is a perfect blend of lecture based theory with video demonstrations and plenty of hands on. It is all taught taking the most current evidence base into account. Ian has a very relaxed way of teaching which engages all of the participants. There is a mix of experience with the current delegates but Ian's pace takes all levels of experience into account. The total cost of the course is £3780 for Riverdale Dentists (which works out as just over £400 per day) This compares with £5040 for London course (and then factor in travel costs, accommodation costs, days off work)

Course Director

Dr Ian Cline | Clinician, Educator, National & International Speaker

Ian has presented numerous courses for the past 15 years to dentists both Nationally and Internationally (including recent trips to Russia, Ireland, Spain, Poland, Dubai, Israel, Palestine, Kuwait, Egypt). His experience is from teaching small hands-on masterclasses, to being a keynote speaker at international conferences.

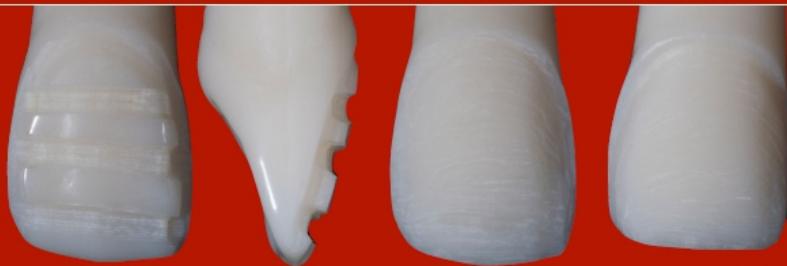

He is very much a wet fingered dentist, and is a partner in a Central London Private Practice. here he carries out all manner of general and aesthetic dentistry. His main interests are in Minimally Invasive Aesthetic Restorative Dentistry, and Anterior and Posterior Direct Composite. He is a past President of the London Dental Study Club, and is a Guest Lecturer to the King's College London MSc programmes in Fixed & Removal Prosthodontics. He has been a member of the International Jury Panel for the Global CeramX case contest for the past 5 years. He is an opinion leader and advisor to a number of dental companies and is the author of the Dentsply "how to guide" on simplifying posterior composite restorations. He is also founder of the website, photographyfordentists.com
